

SIPSAW – School Improvement Plan for Student Achievement and Wellness – Numeracy

Cycle 2 Goal:

- 80% of our focus students will acquire and be proficient at an additional strategy further along Alex Lawson’s Continuum of Numeracy Development in Addition and Subtraction
- 50% of our focus students will express attitudinal improvements as the result of them gaining increased capacity to use a variety of strategies when participating in number talks

Plan:

- *Students will be able to monitor how efficient the strategies they are using are working and set goals to begin to work towards using more efficient strategies along Alex Lawson’s continuum of Addition and Subtraction strategies*
- *By February all focus students will acquire and be proficient at an additional strategy further along the continuum*

Effective February 2019:

- *Students will be able to monitor how efficient the strategies they are using are working and set goals to begin to work towards using more efficient strategies along Alex Lawson’s continuum for Multiplication and Division*
- *By the end of May all focus students will acquire and be proficient at an additional strategy further along the continuum*
