

2017 UNITED COUNTIES SCIENCE CANADA WIDEWINNERS

United Counties Science Fair

IMPORTANT DETAILS

Fair Day Highlights

Science on the Wall

(Grades 1-5)

Original artistic wall displays created by local elementary school students are displayed. These displays showcase student's knowledge of scientific concepts and are presented in a creative way. These projects have been judged in advance and winners are identified on the wall.

For more information, see the attached blue pages.

Science Fair Projects

(Grades 6-12)

Students present an original science experiment or study. On Fair Day, professionals in various fields judge the projects. **Public viewing of projects is from 8:30 am -2:00 pm.**

For more information, see attached yellow, white and purple pages.

Science Spectacular

After the judging has been completed, students explore science through hands-on activities coordinated by UCSF Committee members.

Science in the Community

Students and their families are encouraged to visit displays from community science organizations such as Cornwall Aero Modellers & Ladies Learning Code. These will be set up in the main mall of the school.

Awards Ceremony

We will be awarding up to \$10 000 in the form of prizes, scholarships and trips, including the opportunity to represent the Regional Fair at the Canada Wide Science Fair. **This world-class event will be held in Ottawa, ON in May 12 - 19, 2018.**
